Smashing Dashboards

Presentation agenda:

Install Smashing on macOS

Import and configure SmashingJamfPro

Where to get more information

© JAMF Software, LLC

But first…

© JAMF Software, LLC

Install Smashing

After installing Ruby, type in Terminal:

```
gem install bundler
gem install smashing (Get comfy; this takes a while)
```

© JAMF Software, LLC

Install Smashing

While we wait…

- https://jamf.it/smashblog - Sachin Parmar's blog
- https://jamf.it/dashwork - Shopify's demo
- https://jamf.it/JNUCRuby - JNUC '16 Chris Lasell's Presentation Ruby JSS

Install Smashing

In terminal, type:

```
smashing new jnuc
cd jnuc/
bundle
smashing start
smashing install 6246149 (to get the Hotness widget)
```
